RE: Request For Information Pursuant to
Section 104 of CERCLA for the Libby Asbestos
Site (SSID #BC), located in and near Libby,
Montana

Dear Dr. Lee:

I am writing in response to your letter of January 17, 2003. In response to the request of the United States Environmental Protection Agency (EPA) to provide specimen grids related to the Libby Asbestos site, you indicated a concern about transport of the grids and offered the opportunity for EPA to perform analyses of the grids at your Monroeville facility. In order to determine if your offer is appropriate, EPA needs more information, as reflected in the questions below.

- 1) Which TEM microscopes will be available? Please indicate, in particular, if a JOEL TEM 1200 or other JOEL TEM is available for use by EPA or EPA's representative.
- 2) Will digital imagery be available for capturing the microscopic view of fibers and diffraction patterns?
- 3) Will equipment be available to capture and reproduce EDS spectra?
- 4) Will equipment be available to compile the results of analyses onto a CD?
- 5) Will RJ Lee Group require those attending to sign any type of a waiver or any other legal document? If so, please provide a copy of that document.

Printed on Recycled Paper

Please provide your response to Ms. Kelcey Land at the address indicated below no later than April 30, 2003.

U.S. Environmental Protection Agency
Kelcey Land
Technical Enforcement Program, 8ENF-T
